

CATTLE CONFINEMENT SOLUTIONS

LEGEND
RUBBER INC

OUR HISTORY

Legend Rubber Inc. was established in 2004 and has grown to become the leading manufacturer in cow comfort products in North America. Prior to establishing their operation in Ontario, Legend had a similar operation in the UK where they worked for 8 years and completed thousands of livestock projects.

Legend Rubber Inc. has worked with livestock operations across North America ranging from small to colossal operations. We are focused on increasing the comfort and productivity of your herd while simultaneously reducing the risk of injury to people and animals using rubber matting and other shock absorbing materials.

BE THE LEGEND.

BE THE FUTURE.

**INCREASE COMFORT
AND INSTAKE
WHILE REDUCING
AND PREVENTING INJURY
WITH THE LEGEND RUBBER
SLAT MATS**

SLAT MATS

One of the highest tensile strengths and abrasion test results in the industry.

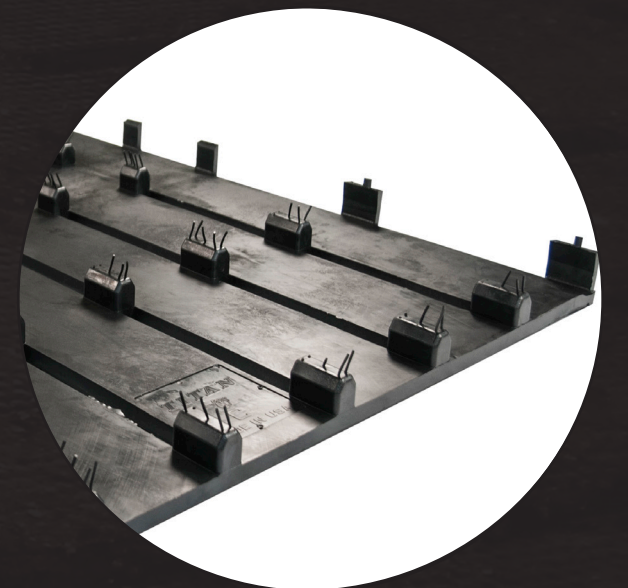

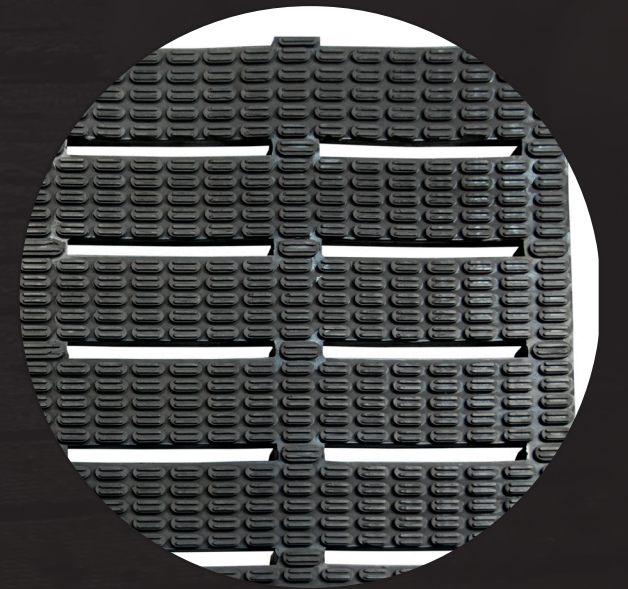

Checker plate top finish will keep the cows cleaner as it is not a raised lug that will plug up with manure and become a slippery floor.

Custom cut with our water jets to fit each slat design.

Cows will move more freely and access their feed more often if they are comfortable and confident in the surface they are standing and walking on.

Less slippage preventing injury during a slip or fall.

Thickness: 1"
Size: 4'X6'

TRANSITION LANES & WALKWAYS

Looking to relieve some of the stress and panic that comes with changing pens or bringing the cows to pasture?

Let Legend Rubber help! With a perfect blend of a high profile checker plate texture on top and a studded base, the Legend Rubber Agrimat comes with some of the best traction and comfort for your traveling lanes!

One of the highest tensile strengths and abrasion test results in the industry.

Checker plate top finish and a studded base for maximum traction and comfort.

Custom cut to fit any area.

Cows will move more freely and comfortably throughout the facility.

Injury prevention and protection due to less slippage.

Thickness : 1"

FROM MANUFACTURING TO FITTING, AND EVERYTHING IN BETWEEN!
